Opis produktu

Clear Case

Maximum protection, minimalist design

Design always in view

Smartphone design matters. For those who value an attractive look, the Clear Case is a perfect choice. The case is slim and perfectly transparent. That means when you protect your phone with it, you don’t interfere with the original appearance of the smartphone. With Clear Case your phone looks the way you like it – elegant and modern.

Enjoy it longer

The force of gravity is merciless to smartphones. That’s why it’s not worth taking risks. Clear Case has one job – to protect your phone so you can use it freely in any conditions. Rocks, concrete, or steel – nothing threatens a phone protected by our case when it falls onto a hard surface. We verified this with the Absorber125™ test – after 26 drops from a height of 125 cm the smartphone was still like new. With Clear Case you simply use your phone longer. Without risk and without stress!

A dscout research experiment showed that the average user holds their phone in their hand for almost 2.5 hours a day. Clear Case has the certification from the National Institute of Public Health (PZH), which guarantees that it is free of harmful substances and safe for health – regardless of how much time you spend with your phone.

When protecting phones, we keep the planet in mind. Clear Case passed RoHS certification in an independent laboratory – this means it is environmentally friendly and complies with strict EU directives regarding the content of heavy metals and hazardous substances (including lead, mercury, and cadmium).

Lens under special protection

Raised edges around the camera lens – a small detail with a big impact on photo quality. In Clear Case we've implemented special frames to maximally protect the phone's camera lens from scratches. With our case you can safely place your phone on a table or any hard surface, and the lens will remain perfectly smooth. The result? High-quality photos even with intensive everyday use. With Clear Case you can be sure the lens on your smartphone is protected to the max!

High comfort of use

We focused on maximum user comfort. That's why the Clear Case is very flexible and precisely made. We implemented EasyClick™ Buttons technology, thanks to which the buttons are just as responsive as without a case. You press and it works – simple but essential to fully enjoy your phone. Clear Case is strong protection in a form friendly to you!

FAQ - Frequently Asked Questions

Is this case made of rubber?

The Clear Case is made of flexible TPU material.

Does this case bulk up the phone?

The Clear Case is a very slim case with a thickness of 1.2 mm. It looks great on devices and does not add bulk.

Does the Clear Case deform?

When used properly, the Clear Case does not change shape and fits the phone perfectly.
