Opis produktu

Karl Lagerfeld IML KC Script Case

Allow yourself a unique accessory that not only protects your phone, but also highlights your individual style and personality. The Karl Lagerfeld case is a synonym of luxury and elegance, perfect for those who value the highest quality and refined design.

Attract attention

The distinctive pattern with the Karl Lagerfeld logo makes your phone a unique element of a fashion statement. Every detail has been carefully designed to ensure a one-of-a-kind appearance and the highest quality. The mirror finish is not only elegant, but also guarantees that your phone will catch the eye and stand out from the crowd.

Durable and solid materials

The case is made of flexible thermoplastic polyurethane (TPU), which absorbs shocks and protects the phone from accidental drops. PC, or polycarbonate, is a rigid and impact-resistant plastic that further reinforces the structure of the case, providing better protection against more serious damage. The combination of these materials makes the case both flexible and solid.

Unmatched durability

Additionally, the latest electroplating printing technology has been used, which guarantees durability and resistance to everyday wear. As a result, the surface of the case not only impresses with its aesthetics, but is also characterized by exceptional durability, effectively protecting your phone from scratches and damage.

The case is manufactured under license from the Karl Lagerfeld brand.
